

I enjoy listening to KLove radio and wish to continue to do so in the years to come. FM translators shouldn't be forced off the air due to LPFM having precedence over translators. KLove is a Christian radio station that has uplifting music with encouragement and news items throughout the day. Where I listen there isn't alot of this type of radio broadcast available. We need this type of station for the postive growth in families and music that uplifts the soul and praises our creator, God. Thanks for your time and consideration.
